Project Only-Minimum 10 year Obligation _____

The water customer agrees that with this agreement, the terms and provisions of North Prairie Regional Water District Bylaws, Policies and Regulations now existing and as hereinafter amended and adopted shall constitute a contract between the water customer and North Prairie Regional Water District, and both parties are bound by such contract as fully as though each had individually signed a separate instrument containing such terms and provisions. If customer is a married person, membership shall be deemed to be in joint membership by the husband and wife, in joint tenancy, with the right of survivorship, unless otherwise specified. This agreement shall bind the parties, their heirs, personal representatives, successors and assigns. The water customer further agrees that once water becomes available from North Prairie Regional Water District, the water customer will use and/or pay for such water service. North Prairie Regional Water District shall have the final decision in the location of any service connection to its distribution system; shall determine the allocation of water to water customers in the event of a water shortage; and may shut off water to a water customer who allows a connection or extension to be made to his service line for the purpose of supplying water to any other person. In the event the total water supply shall be insufficient to meet all needs of all the water customers, North Prairie Regional Water District will first satisfy all of the needs of all water customers for domestic purposes before supplying any water for any other purpose. The District is responsible to maintain water facilities and equipment to a point of delivery (curb stop). The water customer (or landowner) agrees to grant North Prairie Regional Water District (NPRWD), its successors or assigns, perpetual easement over, above, across, and through certain lands owned by the water customer (or landowner) to erect, construct, install and lay, and thereafter use, operate and inspect, repair, maintain, replace and remove water pipelines and appurtenant, together with the right of ingress and egress over adjacent land for the purpose mentioned above. Notwithstanding, no pipeline shall be installed by NPRWD without a separate written easement between NPRWD and water customer (or land owner) identifying which land(s) a pipeline will be installed, which shall be recorded against the land. The user agrees that they and their successors in title are to be bounded by all present and future policies and regulations of the District which they acknowledge they have had the opportunity to read and which may be amended.
